

Step 3 – click the link to open the Topographic map in a new window or tab (depending on your browser settings)

The topographic maps (in PDF format) are now 11x8.5 inches (letter-size) at 1:24,000-scale; and there is now more overlap between map tiles. The new interactive Search allows users to search for a place or street address, or using the option to search for a Wildlife Management Area (WMA):

More options in the toolbar!
